PROFESSIONAL EXPERIENCE

Magg (Electro Magg)

Jul 2025 – Present

Full Stack Tech Lead

- Reengineered corporate web platform with **Next.js**, **SSR/SSG**, **Prisma**, and **Supabase** — cutting load time from **6s to 1.4s** and improving LCP by **+60%**, directly increasing organic traffic retention.
- Deployed a **Slack API** automation suite centralizing inventory alerts, shift scheduling, and order tracking across 3 departments — eliminating **8+ hours/week** of manual coordination for a 12-person team.
- Established **component-driven architecture**, frontend code standards, and PR review workflows that reduced UI regression bugs by **40%** across consecutive sprints.

Sthorme

Feb 2026 – Present

Full Stack Engineer & Co-founder

Bootstrapped product built in parallel — live with paying users and generating revenue.

- Launched an **AI-powered marketing intelligence SaaS** end-to-end, growing from zero to **200+ active users**; integrated with **Meta Marketing API** and **Google Cloud**.
- Architected **Next.js/TypeScript** frontend + **Python/FastAPI** microservices with **Redis** and **Docker** — achieving **sub-2s** response times on **90%** of queries. Full ownership of CI/CD (**GitHub Actions + Vercel**), infrastructure, and product decisions.

Clever Cloud

Sep 2024 – Jun 2025

Full Stack Developer

- Built and iterated on core modules for an enterprise **ERP** with **React**, **Vue.js**, and **PHP/MySQL** serving **500+ users**; redesigned key UX flows reducing task completion time by **~30%**.
- Introduced **Vitest** testing, formalized PR review gates, and championed **clean code** under Scrum — eliminating critical production bugs across 2 consecutive release cycles. Migrated legacy jQuery to **React** with composable patterns, cutting bundle size by **~25%**.

Industrias Maquinsa

May 2023 – Aug 2024

Full Stack Developer

- Led development of **Fortisiip**, HR platform for **1,000+ employees** that digitized vacations, performance reviews, and records — replacing 100% paper-based processes company-wide.
- Backend: **.NET/C#** with **MVC**, **SOLID principles**, and **repository pattern**; **PostgreSQL + SQL Server** with optimized stored procedures. Frontend: **React** SPA with role-based access, dynamic forms, and real-time validation.
- **Zero unplanned downtime** across 14 months of production. Authored technical documentation and onboarded 2 junior developers.

NOTABLE PROJECTS

Pásalo — Hyperlocal redistribution platform where donating is easier than selling. Next.js, Supabase, Prisma, Zustand, Framer Motion. Geolocation-based discovery, zero-transaction model.

Aparecen.mx — Missing-persons search cards for Mexico. 100% client-side (Next.js, TypeScript, Tailwind), zero data stored, privacy by design. aparece.vercel.app

ChambaFlow — Job application automation bot for OCC/Computrabajo. Python + Selenium via Chrome DevTools. Reduced manual time by ~80%. github.com/IsrraDex36/chambaflow

TECHNICAL SKILLS

Frontend: React, Next.js, Vue.js, TypeScript, JavaScript ES6+, Tailwind CSS, Zustand, Pinia, Framer Motion, shadcn/ui

Backend & Data: Node.js, Python (FastAPI), PHP, .NET/C#, Prisma, PostgreSQL, MySQL, SQL Server, Redis, Supabase, Docker

Architecture: REST APIs, MVC, Repository Pattern, SOLID Principles, Clean Code, Component-Driven Design

Tools: Git, GitHub Actions, Vercel, Vite, Vitest, Jest, Figma, Scrum/Agile, CI/CD

EDUCATION & LANGUAGES

B.S. in Software Development and Management — Universidad Tecnológica de Huejotzingo

2021 – 2025

Spanish (Native) · **English** (Intermediate — B1)
